

The main difference is

Adventure Boots are designed to walk in.

Adventure	Terra
PU “hike boot” sole with flexible forefoot. Hike and walk for miles and wear day after day. You may not need to take another pair of shoes along.	Stiffer Enduro style sole, a little less walking friendly, more fore foot protection. Take some “evening” shoes.
No toe cap	Optional external steel toe cap.
Internal TPU shields	Firmer, external TPU plastic malleolar (ankle lumpy bits), heel and toe shields.
Broad flexible shin protector	Stiffer shin protector.
Nylon gate buckles	Metal gate buckles
Waterproof	Waterproof
